THEORY FROM AFRICA

AUGUST 21-28, 2017

What would it mean to theorise with concepts from the Global South about the historical experience of Africa, Asia, Latin America and the Caribbean? How can we begin to take intellectual traditions from our spaces seriously and not continue with the dichotomy of African/Asian fact and European theory?

This seven day workshop to be held at the Centre for Indian Studies in Africa, University of the Witwatersrand, provides seven fully funded scholarships for graduates/young lecturers from African universities (covering airfare and accommodation).
